

Church Family.

We've been through a lot since March 2020. God has stretched us in ways that we have not imagined possible. We've experienced loss and great success. Through it all, God has been EXTREMELY faithful, and we are beyond grateful.

Recently, our city and region has experienced a spike in COVID cases that has outpaced any previous period since the pandemic began. This risk, and the real impact it has had on our congregation, has led me to make a decision to return to limited capacity for all worship related activity in the church. This means:

- In-person attendance to worship services will be limited to those serving each week.
- All ministry activity / meetings will be virtual only.

This is effective immediately and will continue until further notice. We will reassess monthly to see if and when adjustments can and should be made.

God has been faithful to us since the pandemic and God will be faithful to us until it lifts for good. As we continue to love our neighbors and ourselves well, let's continue to serve God and others together in ways that allow the Kingdom to be revealed through our everyday decisions.

Praying with and for you all!

Blessings.

--David
